Ex.2 page 63

Прочитайте тексти:

3 • **Net fishing.** Fishermen use nets to catch fish, but sometimes a dolphin may swim into a net. If the dolphin can't get out, it will die because dolphins need air to breathe.

• **Boat users.** If boat users aren't careful around these waters, they can harm or kill a dolphin.

• **Water pollution.** This can make Hector's dolphins ill. Also, they may eat rubbish, like plastic bags, and die.

4 • Join an organisation that helps dolphins and other sea creatures.

• Keep the environment clean. If you see any rubbish, pick it up. If we continue to pollute, problems will get worse.
