Geography and Climate

The United Kingdom of Great Britain and Northern Ireland is situated on **islands**. **Northern Ireland** occupies the northeast part of Ireland. It is situated on a separate island. Great Britain **consists** of three parts. Their names are **England, Scotland** and **Wales**. Scotland is situated in the north of Great Britain, Wales — in the southwest, and England — in the southeast.

¹a kingdom ['kɪŋdəm] — королівство

²a current ['kʌrənt] — течія

Great Britain is **surrounded** by seas on all sides and is **separated** from the continent by the North Sea and the English Channel. The rivers in Great Britain are not long, but many of them are deep. The capital of the UK, London, is situated on the **River Thames**. There are many mountains in the north of England and in Scotland, but they are not very high. The highest mountain in Great Britain is **Ben Nevis**. There are many lakes in Scotland. The most beautiful is **Loch Lomond**. There are many countries which are connected with the UK by sea.

Thanks to the **Gulf Stream** the climate of the UK is mild. The weather is often foggy and rainy. Summer is not very hot and winter is not very cold. Winter temperature seldom¹ falls below zero.
