#### 3. Reading

Ex. 2 page 92

Прочитайте тексти:

 <p>1 Most of my classmates have mobile phones. I myself don't have one. They bring their phones to school. They cannot use the phones during the class, but they sometimes send and get messages, so they cannot concentrate on the lesson. When the teachers notice this, they get very upset, they send them to the headmaster, they</p>	<p>confiscate the phone and they give all of us lectures. What a waste of time and energy! The worst thing is when a phone rings! What do you think?</p> <p>2 We have a new boy in our class. He is quiet and okay but some people are horrible to him, especially this one boy who is</p> 
--	---

really arrogant and full of himself. The new boy has to defend himself all the time. My dad says bullies can be boys or girls. They pick on kids who are new or who are different for some reason. Maybe they are talented and this makes some people jealous! I think all this is horrible. Can kids solve problems like these themselves or should they tell their parents and their teachers? What do you think?

- 3 This is what I hear at home: "You only enjoy yourself! How can you get into a good school or get a good job one day if you don't study hard? Look at your cousin Robert! He studies all

the time and he has all A's." I'm sick and tired of hearing it. And I'm sick and tired of my cousin! In my opinion, parents put too much pressure on their children to have all A's at school. The bad thing is that they are only interested in grades, not in how much their children know or how much they learn. We study for ourselves and not for our parents! What do you think?
