When you plant a seed into soil there are a few things that it will need to grow. First, you will need to be sure that your soil stays moist. You should water your seed right after you plant it, and water it each day. If it is very hot, you may even need to water it twice a day. Your plant will also need sunlight. If your plant is in a pot, place the plant in a spot where it will get plenty of sun. If you are planting seeds in

a garden, make sure the garden is in a place where it will get sunlight throughout the day.

Plants need soil, sun and water.

Planting a garden can be fun.

The Cat and the Color Bag

By: B. Marker Correlates with Sets 1- 5 Facus Sound: Short Yowel Bayley

A cat was on a mat. The sun was up. In the land, there was a lot of color. "I will put some in my bag," said the cat. "You can not put color in a bag," said a dog. "But I can," said the cat.

The cat ran to the hill. The cat

set a red bud in his bag. There were little yellow bugs. One went BUZZ into the bag. Next to the water, there was blue fuzz. It was from a bird. The cat set the blue fuzz in his bag. A green frog went HOP into the bag too.

The cat ran to his mat. He set the color bag on his lap. "The world is so big," said the cat.

"It is," said the dog. "You did it!

"And It was a lot of fun," said the cat. The End.
